Subject: Response to: Review into Open Banking in Australia & Final Report

Good afternoon,

We would like to request that a consumer representative be included the development of the technical standard for open banking as an example, and in any advisory group being established to develop specifications for the Australian open banking standard and system.

CHOICE has expertise not only in policy, but also in financial technology and standards processes, and would be pleased to nominate a representative.

Thank you and regards,

Viveka Weiley, Head of New Things, CHOICE.
